Title	<b>Promoting Internationalization and Comparability of Quality Assurance in Higher Education</b>	
Priority	Quality Assurance	
Description	<p>The project aims at developing new and at adjusting existing models for external quality assurance systems in higher education in the partner countries which are acceptable and comparable regionally and internationally. The competences of HEIs in the partner countries in external and internal quality assurance will be developed in order to prepare them for applying its methods and instruments. The project will also enable the relevant actors in both HEIs and agencies in Armenia and Georgia to deal with cultural and behavioral parameters influencing the success of quality assurance measures. The dialogue between relevant stakeholders of the HE systems on the national level and beyond will be fostered. A strategy will be defined for countrywide and regional implementation of the project results. During the project, feedback loops for the ongoing improvement of the system itself are foreseen to monitor its relevance and applicability.</p>

Priority	Curriculum Reform: Law and good governance (incl. human rights); Development of LLL at society at large.	
Description	<p>1. To develop, accredit and implement a basic curriculum for a Master Program in Migration Studies with a regional dimension in line with the Bologna requirements at 6 universities in Armenia, Azerbaijan and Georgia. The curriculum, developed jointly by EU partners and partner country institutions, will then be adapted to each partner country/ university's specific needs. The joint curriculum should serve as a strong foundation for further cooperation among the partner institutions (universities and non-university partners); mutual degree recognition and potentially even joint programs are envisaged.</p> <p>2. To found sustainable structures with the establishment of national Migration Competence Centers (as integrated university units at the I.J. Tbilisi State Univ., GE, the Yerevan State Univ., AM, and the Khazar Univ., AZ) and a Regional Research Network that serve as an interface between universities, research and public institutions, governments and society.</p>

Project Type	Joint Projects	
Target Country	GE, AZ, KG, KZ, IL	
Title	<b>Student Support and Development Services</b>	
Priority	Governance Reform: University Management and Student Services	
Description	Project targets are higher education institutions in GE/AZ/KG/KZ/IL with the key objective to improve the quality of services delivered to students and alumni. It aims to build the human resource capacity in planning, administering and evaluating student and alumni services and developing and improving necessary infrastructure for student support and development. The most-up-to-date planning, development and management resources will be utilized for these services and adapted to the needs of the student body. Under the umbrella of Student Support and Development Office, four major subdivisions of student and alumni services will be established at target institutions: Office of Career planning and Alumni Relations, Office of Student Life Services, Office of Academic Support and Orientation and Office of Mentoring and mobility counselling support.

Title	<b>Access to Society for People with Individual Requirements</b>	
Priority	Higher Education and Society	
Description	<p>The specific objectives of the project is the Three Strand Implementation of a comprehensive sustainable curriculum for Teacher Trainer Educators and Lecturers (Universities), secondly for Government &amp; State Employee &amp; Policymakers (Public Administration Educators), and thirdly, for NGO (Non-university Educators) in Armenia and Georgia. This will foster the right of individuals with special needs to access education, enjoy the right of participation in everyday society and to combat discrimination by instilling awareness and acceptance in society as in line with Bologna Process and the UN Convention on the Rights of Persons with Disabilities. This in turn facilitates the creation of the Access Liasion Officer role at each institution to promote disability access, and the National Special Needs Awareness Day focus via the nationally strategic Action Groups comprised of universities, public administration institutes, Ministries and NGOs.</p>

Title	<b>A Network for Developing Lifelong Learning in Armenia, Georgia and Ukraine</b>	
Priority	Higher Education and Society – LLL development	
Description	The wider objective is to tackle the unemployment and lack of innovation due to a gap between labor market needs and skills of labor force. Changing conditions in the labor market must be matched by a continued development of the competencies of the workforce and enhance the social inclusion of people into active work life. This could mean learning new and appropriate skills within a current work field, re-education into new profession, or providing transversal skills that enables easier career shifts.

Title	<b>Modernization of Mathematics curricula for Engineering and Natural Sciences studies in South Caucasian Universities by introducing modern educational technologies</b>	
Priority	Curriculum reform - Mathematics	
Description	Mathematics constitutes a main scientific fundamental of all Sciences, Technology, Engineering and Mathematics (STEM) curricula and, if so, the quality of Math education is one of the important elements of technological modernization and economic reforms. Another conceptual pillar of the proposed project is that despite a well-known conservatism of math education, the application of new educational technologies can radically improve the quality of learning outcomes, stimulate students' motivation and creativity, thus improving the quality of STEM education as a whole.

Title	<b>The organisation of a common two-year master programme in three Georgian universities on "European Integration and Employment Relations"</b>	
Priority	Curriculum reform	
Description	The project's aim is to contribute to the modernisation of the higher education system in Georgia by introducing a new 2-year master programme on "European Integration and Employment Relations". Its broader objective aims at improving the education of specialists in the field of employment relations able to play a transformative role in facilitating a policy change that brings Georgia closer to European Union and internationally agreed labour standards. This objective seems to be of particular relevance in the dynamic of the recent rapprochement negotiations between Georgia and the European Union (cfr. DCFTA).

Title	<b>The development of human resources, evidence base and quality standards in addictology (trans-disciplinary addiction science) in Georgia</b>	
Priority	Higher Education and Society	
Description	The project aims to increase the potential of Georgia to pursue a modern, evidence-based drug policy and thus to tackle the acute problem of drug addiction and its negative consequences by means of developing and implementing MA and BA curricula and a lifelong learning framework in addictology (addiction science). The project substantially broadens the current medical scope of addiction treatment in Georgia with methodological and epistemological perspectives of related disciplines (psychology, social work, law et al.). The project will develop human resources, building on the existing higher education capacities in Georgia and on an innovative, EU-based transdisciplinary approach.
